Finishing Construction in Haiti

TLC & Church floor album - Tom power trowling

We are anticipating the arrival of our last construction group from Florence S.C. in Haiti this month. We are going to weld and mount large metal trusses on 24 foot concrete columns. Please be in prayer for everyone's safety. [Hope orphanage](#) has loaned us all kind of tools including a power trowel. This really helped us with the church

floor. In addition to this hurdle we have also completed the septic system, the water pump project and the [TLC](#) has a new Ondura roof.

We are very grateful for our pastores and churches that responded to our communications in February. We raised half of the \$24,000 needed to complete the major engineering projects. While we still lack a little bit from being where we want to be, we know God is in control. Pastor Clifford keeps working daily and several new families have joined the church. All this and preparations are underway for his and Luisna's wedding in June.
