Disc Golf Comes to the Dominican by Tyler Franklin

The course took more than a month to design and develop

It is finally here! I have been working on this since the beginning of April and the fruits are just now beginning to show. The Dominican Republic now has its first disc golf course! I have had so much fun working with Dynamic Discs and their wonderful staff to obtain the equipment necessary to build this beautiful 9-hole course. The Foundation bought the equipment mid April and by the time I flew down in May the equipment was there.

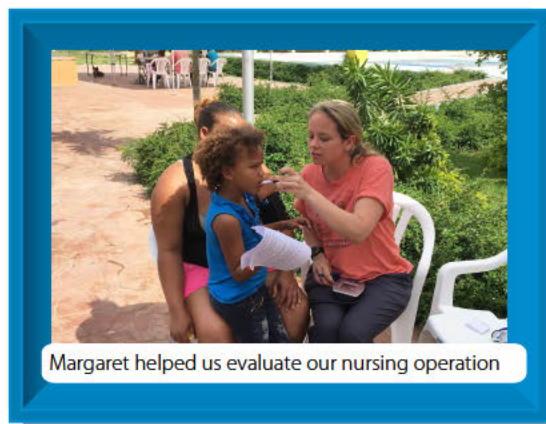

Once I had finished the design of the course, the camp assigned

some men to start digging holes, filling them with cement, making stairs for an elevated tee box (picture above), and putting the baskets together. I have enjoyed getting people excited and answering all the questions they have had! It has been a wonderful experience, but the one thing that fills me with joy more than anything else is that the disc golf course will be used to spread the Word of Jesus Christ. First and foremost, the camp will be using it to get kids excited about coming to Tierra Alta where the staff will be ready to give them the gospel. Second, it will attract tourists and locals to come and play disc golf and since it is a private course, we will also have an opportunity to tell them about Christ. I am so happy that the Lord has allowed me to do this and I direct all the honor and glory to Him! Note: While completing a non-paid Internship at camp, Tyler was featured on <http://dynamiccoursedesign.com> and www.ultiworld.com

Prayers and Praises

We were in Altos de Chavon, Boca Chica, for a medical operation. The doctors saw 176. We shared the Gospel of Jesus and 4 made decisions for Christ! We thank God for all the volunteers especially Nick and Margaret who traveled all the way from Maine to be with us this week.

In Los Llanos, San Pedro, 147 people attended, the Gospel was shared with each patient and 30 people received Christ!

Margaret helped us evaluate our nursing operation
